

Transform your manual, paper-based A/P processes into automated workflows.

How It Works:

Automated Invoice Data Capture

Avidxchange receives invoices and sends invoice data and image to Vantaca via API, pre-populating the information into your existing workflow.

Approval Inside Vantaca

Management company employees and board members can approve invoices inside Vantaca.

Secure Payment

Payments to service providers are pushed through Vantaca and sent via the AvidPay Network.

Benefits of Invoice Pay+ powered by AvidXchange

- ✓ **Reduce Administrative Workload** - Reduce the manual work needed to approve invoices and enable employees to take on new strategic initiatives.
- ✓ **Maximize Efficiency** - Streamline your processes in one solution, save time, and reduce costs tied to errors or late disbursements.
- ✓ **Gain Comprehensive Visibility and Control** - Track the status of every invoice and payment.
